

THEORY & TECHNIQUES

Aims & Objectives

To provide training in basic principles of knee arthroscopy and the range of common operative procedures performed in knee arthroscopy practice.

Learning Outcomes

Upon completing the course, participants will have developed the following surgical skills in a simulated setting: -

- Draping and portal placement for knee arthroscopy
- Conducting diagnostic knee arthroscopy
- Removing a loose body
- Performing a synovial biopsy
- Recognising the indications for and executing both medial and lateral arthroscopic meniscectomies
- Recognising the indications for and performing arthroscopic chondroplasty and debridement
- Recognising the indications for and executing microfractures

TOTAL FEE

€1,200

The course is limited to 12 places and these will be offered on a first come first served basis

Teaching Methodology

Online Lectures: Learn at your own pace and at a time that suits you

Online Tutorial: Live online face to face with Orthopaedic Surgeon and Anatomist to answer any questions that may arise from lecture material

Practical Session: In person surgical skills lab in the ASSERT Centre with Human Cadaver specimen . **October 22nd 2024 from 9-5pm**

Prerequisite: All participants must have completed **AN6020 Fundamentals of Human Structure** or provided evidence of attending similar foundational **anatomy course**

FACULTY

**MR REHAN GUL, MBBS, Dip SICOT,
AFRC SI, FRCSI, FRCS (Tr & Orth)**

Venue:
The ASSERT Centre,
Brookfield Health Sciences,
Complex, College Road, Cork,
Ireland
